

IN THE CIRCUIT COURT OF THE STATE OF OREGON
FOR HARNEY COUNTY

In the Matter of the Determination of the Relative Rights)
to the Use of the Waters of)
DONNER UND BLITZEN RIVER)
and its Tributaries, a Tributary of Malheur Lake.)

No. 3 3 5 5

D E C R E E

This matter coming on to be heard on the claims submitted by the respective water users of the waters of Donner und Blitzen River and its tributaries to the State Engineer, on the testimony taken before the State Engineer and the order of determination passed by the State Engineer under date of December 17, 1938, and on the proceedings had in this court based upon exceptions filed by certain of the water users to the conclusions reached by the State Engineer, and the matter having been argued and submitted to Honorable T. E. J. Duffy, sitting in this court in September, 1939, and having been taken under advisement by the said Honorable T. E. J. Duffy while functioning as judge of this court, and the said T. E. J. Duffy having passed an opinion determining the issues so presented in these proceedings, which opinion bears date the 11th of January, 1941; and

It appearing that Judge Duffy died on the 28th of January, 1941, and

It further appearing that Honorable David R. Vandenberg has been named by the Chief Justice to sit in this court and in this matter and pass on all matters arising therein, and

It further appearing that by an order passed on the 8th of August, 1941, the Court, as so organized, adjudged a paper identified by Mrs. Florence Swanson to be the original opinion handed down by Judge Duffy, as aforesaid, and directed the filing of the said opinion in this court and proceeding, and

It further appearing that by an order passed on the 9th of October, 1941, the Court, as so organized, exercised its discretion by determining that the said opinion handed down by Judge Duffy should stand as findings of fact and conclusions of law herein, and further determining that the parties to this proceeding are entitled to a decree based upon the said opinion of Honorable T. E. J. Duffy and adjudging in accordance therewith the rights of the respective parties to this proceeding and of the users of water in the watershed of Donner Und Blitzen River and its tributaries, now, therefore, it is

CONSIDERED, ADJUDGED AND DECREED

(1) That on the 2nd day of May, 1929, there was filed in the office of the State Engineer a petition signed by the Eastern Oregon Live Stock Company, requesting a determination of the relative rights of the various claimants to the use of the waters of Donner und Blitzen River

One Decree

and its tributaries, a tributary of Malheur Lake. That the State Engineer, after a full investigation and due consideration of said petition, finding the facts and conditions such as to justify it, fixed a time for the beginning of such examinations and investigations and surveys as would enable him to determine the relative rights of the various claimants to the use of the waters of Donner und Blitzen River and all of its tributaries.

(2) That a notice was prepared by the State Engineer setting forth the date when the State Engineer or his assistants would begin an investigation of the flow of said Donner und Blitzen River and its tributaries and the ditches diverting water therefrom, and said notice was published in two issues of the Burns Times-Herald, a weekly newspaper of general circulation in Harney County, Oregon and published at Burns, Harney County, Oregon, said two issues being those of May 25 and June 1, 1929, the date of the last publication of said notice being more than ten days prior to the date fixed for the beginning of the measurements of said stream, as provided by law.

(3) That duly qualified assistants of the State Engineer did proceed to make examinations, surveys and measurements of said stream and its tributaries and of the ditches and canals or other works diverting water therefrom and surveys of the lands irrigated, and gathered such data and information as were essential to the proper determination of the relative rights of the parties interested, which said observations and measurements were reduced to writing and made a matter of record in his office. And the State Engineer did cause to be prepared a set of maps or plats showing with substantial accuracy the course of said stream and its tributaries, the location of each ditch or canal diverting water therefrom and the number of acres of land which had been irrigated in each legal subdivision, blue prints of said maps and plats being now on file and a part of the record herein.

(4) That as soon as practicable after the examination and measurements were completed as described in the preceding paragraph, the State Engineer did prepare a notice setting forth a time and place certain when he would begin the taking of testimony (statements and proofs of claim) as to the relative rights of the various claimants to the use of the waters of said stream and its tributaries; that said notice was published in two issues of the Burns Times-Herald, a newspaper of general circulation published weekly at Burns, Harney County, Oregon, said two issues being those of April 4 and 11, 1930, the last publication of said notice being at least 30 days prior to the first date fixed for the taking of claims by the State Engineer.

(5) That the State Engineer did send by registered mail to each person, firm or corporation claiming a right to the use of any of the waters of said stream and to each person, firm or corporation owning or being in possession of lands bordering on or having access to said stream or its tributaries, insofar as said claimants and owners and persons in possession could be reasonably ascertained, a notice similar to such published notice, setting forth the date when the State Engineer or his authorized assistants would receive the statements and proofs of claim of the various claimants to the waters of said stream and its tributaries. That said notice was mailed at least 30 days prior to the date set therein for the receiving of claims in each instance. And the

Two Decree

State Engineer did enclose with each of said notices a blank form upon which the claimant or owner could prepare in writing all the particulars necessary for the determination of his rights, under oath.

(6) That the times and places when and where the State Engineer or his duly authorized assistants should attend and receive the claims of the various parties were fixed as follows, to wit:

On Tuesday, May 20, 1930, in the Circuit Court Room
of the County Court House at Burns, Oregon.
On Thursday, May 22, 1930, in the C. H. Smyth Hotel
at Diamond, Oregon,
And for a period of 30 days, beginning with Monday,
May 26, and ending with Wednesday, June 25, 1930, in
the office of the State Engineer in the Capitol Building
at Salem, Oregon.

That during the period so specified in such notice and extensions thereof claims to the use of the waters of said stream and its tributaries were filed by the following parties, to wit:

Alberson, J. O., Diamond, Oregon
Beckley, Ernest H., Diamond, Oregon
Beckley, Ernest H. and Walter H., Diamond, Oregon
Beckley, Mary C., Princeton, Oregon
Benson, George M., Voltage, Oregon

(8) That after the completion of the taking of such statements and proofs of claim the State Engineer did, on the 25th day of August, 1930, give notice by registered mail to each of the various claimants to the use of the waters of said stream or its tributaries, that at the times and places named in said notices, to wit:

On Monday and Tuesday, September 8 and 9, 1930
in the Circuit Court Room of the County Court House
at Burns, Oregon,

On Thursday, September 11, 1930, in the Diamond
Hotel, at Diamond, Oregon.

And from Wednesday, September 17, to October 1,
1930, inclusive, (Sundays Excepted) at the office of
the State Engineer in the Capitol Building at Salem,
Oregon,

the testimony and proofs of claim theretofore filed would be open to public inspection. That said notice did also state therein the county in which the determination of the State Engineer in said proceedings would be heard by the Circuit Court of the State of Oregon, to wit: The Court of Harney.

(9) That within the time fixed by law therefor, certain contests were initiated by the filing with the State Engineer of notice of contest in writing, as appears in the State Engineer's Findings of Fact and Order of Determination.

(10) That after the filing of said statements of contest the State Engineer did fix a time and place for the hearing of each of said contests, and did on the 17th day of March, 1931, serve notice of hearing of said contests on each of the parties to said contests, the date fixed for hearing being more than thirty days and less than sixty days from the date the notice of said hearing was served on said parties. That upon the date as fixed for hearing of said

contests, the taking of testimony was commenced before a duly authorized reporter and continued until each of said contests was fully heard, settled by stipulation, or disposed of otherwise.

(11) That due proof of the sending of the various notices by registered mail as hereinbefore set forth has been made and filed as a part of the record herein.

DUTY OF WATER, HEAD OF WATER, AND IRRIGATION SEASON

(12) The rights to the use of water for irrigation purposes as herein recognized shall entitle the owners thereof to the diversion of such a quantity of water as may be applied to beneficial use upon the lands to which such rights are appurtenant; provided, that the quantity diverted shall not exceed one-fourtieth of a cubic foot per second per acre of land irrigated, prior to June 15, and one-eightieth of a cubic foot per second per acre of land irrigated, after June 15 of each year, with a total limitation during each irrigation season of three acre-feet per acre; all to be measured at the point of diversion from the stream or other body of water from which the water is obtained; provided, that in case of lands receiving water by natural overflow, no user shall be charged without his consent with more than three-fourths acre-foot per acre in April, one-acre-foot per acre in May, and one acre-foot per acre in June. In regulating the quantity of water diverted by any appropriator, the watermaster shall take into account the quantity of water being received by such appropriator's lands as waste or overflow from lands above.

The irrigation season on Donner und Blitzen River and its tributaries is hereby fixed as the period from March 15 to October 1 of each year.

STOCK AND DOMESTIC USE

(13) All parties herein allowed the right to the use of water for irrigation shall be entitled to use such water for stock and domestic purposes during the irrigation season; provided, that such appropriators shall not be entitled to any water for stock or domestic purposes in addition to the quantity which they are entitled to divert for irrigation purposes; provided, that at no time shall more water be diverted for such purposes than is reasonably necessary for such purposes, and to prevent the ditches and channels used for such purposes from being completely frozen; provided, that the use of water for stock purposes shall be restricted to the ditches or channels which have customarily been used for such purposes, and that all water users shall so far as practicable provide stock watering holes or ponds into which stock water may be diverted periodically.

(14) It appearing that it has long been the practice of the water users in the Diamond area to use the water on lands within said area independently from those on the Donner und Blitzen River regardless of priorities and that the most efficient use of water results from such practice it is adjudged that the said practice should continue to be allowed as herein modified. The use of water in the Diamond area shall be distributed by the watermaster to each separate and distinct subdivision or tract of land contained therein, strictly in accordance with the priorities declared in this decree.

Six Decree

In the event the water users within the Diamond area shall agree upon a different distribution system of the waters awarded to the several legal subdivisions or tracts of land contained therein from that provided in this decree or under rotation, such users may adopt such system, and in that event the watermaster shall distribute the water to which such users are entitled in accordance with such system, always provided that such agreement and the acts done pursuant thereto shall not interfere with or infringe upon the rights of other users or appropriators not parties to such agreement.

APPURTENANCY

(15) That the rights to the use of water for irrigation purposes hereby confirmed are appurtenant to the lands herein described, and the rights of use of the waters of said stream and its tributaries by virtue of such rights are limited and confined to the irrigation of the lands described herein to the extent of said lands herein set forth, and the priorities of right herein confirmed confer no right of use of the waters of said stream and its tributaries on any lands other than those specified tracts to which such rights are herein set forth as appurtenant, and each and every person shall be and hereby is prohibited, restrained, and enjoined from diverting and using water from said stream and its tributaries on such other lands without lawful approval first obtained from the State Engineer.

PRIORITIES

(16) That the order of the rights of the respective appropriators of the waters of said stream and its tributaries, and in which order they are entitled to divert and use the said water except as otherwise provided herein, shall be and is according to the date of the relative priority of the rights as herein set forth and determined, and the first in order of time according to the date of relative priority shall be and is the first in order of right, and so on, down to the date of the latest priority, and those having prior rights are entitled to divert and use the waters of said stream and its tributaries, when necessary for beneficial use in connection with the irrigation of their respective lands, or other useful and beneficial purposes for which they are decreed a right of use, at all times and against those having subsequent rights, without let or hindrance, and whenever the water is not required by the appropriator having a prior right to its use for the purpose for which said water was appropriated, he must and shall permit it to flow down the natural channel of the stream as it was wont to flow in its natural course, without hindrance or diversion thereof, and those having subsequent rights are entitled to the use of such water and to divert the same to the extent of their rights of appropriation, according to the order of priority of their rights; and at all times the waters diverted shall be beneficially, economically, and reasonably used without waste by those having a right to do so by reason of the priority of their rights, and no rights of appropriation are hereby confirmed to divert a greater quantity of water into the head of the ditch or ditches of the appropriator having a valid right to divert the water, than such appro-

priator can beneficially use for the purposes to which the water is to be put.

(17) The rights of the various appropriators of water from Donner und Blitzen River and its tributaries arranged in a tabulated form, with the dates of relative priority of such appropriations, the number of acres to which such appropriations are applied and are now limited, the use or uses to which such water is applied, the name of the ditch or other means by which the water so appropriated has been diverted, the name of the stream or other source from which the water has been used, and the description of the lands upon which the water has been used, the tabulated rights of each appropriator being set opposite and following his name and post office address, are as follows, to-wit:
